

Clinical Epidemiology Program Rounds

Friday, June 9, 2017

noon - 1pm

Johnathan Mack

MD, FRCPC, MSc

Clinical Instructor, Harvard Medical School
Assistant Director, Blood Transfusion Service,
Massachusetts General Hospital

The platelet and the pendulum: should we return to cold-storage of platelets?

- Learning Objectives:
1. Review current storage methods for platelet concentrates
 2. Describe changes that occur to platelets with cold storage
 3. Discuss studies examining in vivo effect of cold-stored platelets

Locations:

General campus: CPR seminar room L1111 (speaking from the General campus)

Civic campus: Loeb, conference room #3
